

AMBITIOUS BONUS PROGRAM SOUGHT BY DISABLED VETS

Five Outstanding Features Included In Program Just Outlined.

EXPECT CONGRESS TO CONSIDER ALL

Hospitalization, Insurance And Rehabilitation Are Being Sought.

Washington, July 16.—An ambitious legislative program for the benefit of ex-service men of the World war will be presented to congress when it reconvenes in December, the Disabled American Veterans announced today. The outstanding features of this program, to which congress is expected to give prompt consideration, are:

1—Passage of a bonus bill.

2—Establishment of special committees on veterans' affairs in both houses.

3—Passage of a bill providing for the codification of all veteran laws.

4—Retirement of disabled ex-service men who have attained a passing grade in civil service examination may be placed at the head of the eligible list.

5—Amendment of existing civil service examination may be placed at the head of the eligible list.

The organization at its third annual convention at Minneapolis, went thoroughly over the ground of hospitalization, insurance and rehabilitation and legislation covering these phases of the ex-service men's problems will be incorporated in the legislative program.

The organization will urge that a veteran who has been or who shall be hospitalized for a period of 12 consecutive months shall be rated as totally or permanently disabled. When he has been so rated he shall receive the same family allowance as now given to veterans bureau trainees. Enactment of a law will be asked to provide hospital care and treatment for all service men regardless of the origin of the disability.

STANTON WRITES ECONOMICS BOOK

Former Principal Of Salem School Is Associate Author Of Book.

There will be considerable interest in Salem, concerning a new book just published by Row, Peterson & Co., of New York, not only because of its contents, but also because of the personality of its authors one of whom is B. F. Stanton, superintendent of Alliance public schools and former Salem man.

This book an "Introduction to Economics" is a valuable edition to books in this field in which there is a notable paucity of good works applicable to elementary study—most of them being too ponderous and technical in expression to be usable by pupils of the age for which this book is designed or by the general reader.

The language of the book is simple and clear and there is a happy balance of theory and fact of the abstract and the concrete, which sustains interest. In almost every section there are found illustrations from daily life which clarify the most difficult problems.

No elementary work on economics can compare with this book in simplicity of construction, material make-up and clear discussion of the big problems that confront modern society, such as competition and co-operation, development of factory systems, problems of capital and labor, collective bargaining, socialism, railways and government revenues.

FINES TWO DRIVERS FOLLOWING CRASH

Justice Ends Wrangle As Auto Strikes Buggy Near Damascus.

Two men were arrested and fined in Damascus Sunday as the result of an accident on the Valley road near Damascus.

Irving Bell of Valley was driving a buggy without a light when a large automobile driven by James Brown of Damascus, crashed into him. Brown had no lights on his machine and the two vehicles came together, each driver claiming that the other was in the wrong.

Mrs. Bell and little daughter who were in the buggy were thrown out with Bell when the car struck the buggy. The child was slightly injured and Mrs. Bell fainted. Both were treated by neighbors and after a physician arrived he reported that both were only scratched and bruised. Bell was thrown clear of the wreckage and landed on the soft ground.

The buggy was completely wrecked and Brown's car was damaged. The two men, who were wrangling as to who was responsible for the accident, went to Damascus to seek aid in straightening out the dispute. Justice of the Peace Slagle was the arbiter. He fined Brown \$25 and costs for driving an automobile while intoxicated and Bell \$5 for violating the state highway code which requires that all vehicles on public roads at night must have a warning light.

TRUCK CRUSHES WOMAN TO DEATH

Woman Is Caught When Truck Backs Into Alliance Platform.

As she was standing at the platform of the Alliance Beverage company plant Sunday purchasing ice Mrs. James Massillon, 45, Lake Park rd. near Alliance, was crushed when a large ice truck backed against the platform.

The driver did not see Mrs. Massillon as he was backing his truck to the platform for a load of ice. Mrs. Massillon, who was talking to one of the attendants inside failed to notice the truck coming toward her. She was horribly crushed against the heavy platform.

Placing her in another car the driver of the truck who heard the terrified screams of the woman as the truck struck her, drove to the Alliance hospital but the woman died before doctors could administer aid.

Surviving are the dead woman's husband and several children.

17 CARS WRECKED IN MISHAPS NEAR THIS CITY SUNDAY

Passengers Shaken Up But None Of Them Are Injured Seriously.

SEVERAL MACHINES SKID INTO DITCH

Slippery Roads Cause Most Of Accidents; Several Cars Stuck In Mud.

Seventeen cars were wrecked and many persons were shaken up and some slightly injured in 14 automobile accidents in and around Salem over the week end.

About 1 a. m. Sunday a car coming west on the Thicket hill east of Salem was almost completely wrecked by a large machine. The owner of the large car after hitting the other speeded up and left the scene of the accident. The identity of the owner of the wrecked car was not learned as he was unhurt and after telephoning a garage to have it towed he went to his home. The car had three wheels torn off and both axles broken.

Several tourists from the southern part of the state were shaken up Sunday afternoon when the car in which they were riding hit a ditch east of the Salem City hospital. The driver of the car, it is reported, was endeavoring to avoid hitting a speeding car coming towards him and on the slippery road the car skidded and landed in the ditch. No one was hurt but one wheel was smashed.

Motorists reported Sunday that they saw a coupe in the ditch west of Millville with a broken axle. It is believed that the driver skidded into the deep ditch. Another car not far from the same spot Saturday night in which an aged man and his wife were riding, suffered a similar fate. The car was left in the ditch badly damaged and the aged couple, whose names neighbors in the vicinity failed to get proceeded to their home in Washingtonville.

Many Mired In Mud

Monday morning one of the small trucks of the Salem Builders Supply company ran into the curb in front of the Salem Lighting company plant on the Depot rd. and broke both wheels on the right side of the machine. The driver was unhurt but a load of sand in the truck was spilled into the road. Residents along the Salem-Alliance rd. reported seven wrecks Sunday. No one was hurt in any of them but ten cars are reported badly damaged. Rain made most of the paved roads very slippery and all dirt roads impassable in and around Salem. Many motorists were mired in the mud and many claimed that they had difficulty in keeping on the paved roads.

On the Salem-Damascus rd. three drivers in an effort to stop their machines on the slippery pavement crashed together. All were large cars and piled up on the road just east of Damascus. It is reported that no one was injured but that all three cars were wrecked.

MINNESOTA VOTE FOR SENATOR HAS LIMELIGHT TODAY

Farmer Vote Being Watched As Three Parties Enter Candidates.

St. Paul, Minn., July 16.—This state, which for years has been agreed upon as a Republican bastion, gave the Old Guard a thrill today as voters of the state went to the polls to choose a successor to the late U. S. Senator Knute Nelson.

Republicans, without exception, were uneasy of the result, but the contest admittedly was between the Republican candidate, Gov. J. A. O. Preus, and Mangus Johnson, the standard-bearer of the Farmer-Labor party.

Fair weather prevailed throughout the state and city voting places this morning reported a normal early turnout of voters. Such reports as came in from the country districts gave little indication as to how heavy the rural vote would be.

"Dollar" wheat, and flour at \$6 undoubtedly have left their marks on the Republican candidates. Farmers are inclined to blame this lump in their most valuable products on the party in power and many of them will vote to seat Johnson for that reason alone.

Unbiased observers declare the race a toss-up, but with a slight trend towards Preus in the last few days. Prominent Democratic leaders, convinced the candidate of their party, State Senator Carley, cannot be elected, are swinging in behind Preus, but that candidate has also lost heavy backing from the Progressive wing of the Republican party. Many followers of Senator Robert M. La Follette, the Wisconsin Progressive, have disavowed Preus and are supporting Johnson.

Held On Charge Of Selling Stolen Car

Police are holding Henry W. Brown, 28, of Kalamazoo, Mich., on orders from the sheriff of Kalamazoo county on the charge of illegal sale of an automobile at that place last week.

Brown was arrested Saturday by Chief of Police T. W. Thompson after a wire from the Kalamazoo police department. Brown had been seen in Ravenna and when police there went to arrest him after the Kalamazoo authorities had wired Brown's description, he had left in the direction of Salem. Chief Thompson after receiving the wire watched all incoming cars and arrested Brown and his wife as they drove past the city hall.

Brown claims that he is innocent of the charge and that he had fully paid for the car that he sold.

SAYS COMMISSIONERS FAILED TO COOPERATE

Lyle Harris Charges County Officials Interfered With His Work And Refused To Make Improvements At Infirmary; Resignation Is Accepted.

Lyle B. Harris, superintendent of the Columbiana county home west of Lisbon, submitted his resignation to the county commissioners Monday morning, to become effective Aug. 31. The resignation was accepted, all three commissioners voting in the affirmative.

In his letter of resignation Harris declared that he was forced to take this step because it is impossible for him to work in harmony with the commissioners. He charged the commissioners with interfering with his work and refusing to improve conditions at the county home.

For the best interests of the county the retiring superintendent asked the board to name someone with whom it could cooperate.

Although Harris has been under fire for several months as a result of charges of malfeasance and misfeasance in office, his resignation came as a bolt out of a clear sky. He had fought previous efforts to oust him and had won a temporary victory when action of the commissioners in discharging him had been declared illegal.

New Charges Prepared The resignation was submitted just as new evidence prepared by his opponents was ready for presentation to the board.

Philippine Cabinet Resigns After Tilt With General Wood

Manila, July 16.—Following almost continuous conferences for 48 hours at the home of Manuel Quezon, president of the senate and Filipino political leader, the Philippine cabinet, with the exception of Vice Governor Eugene A. Gilmore, who is secretary of public instruction, signed a document tendering their resignations which was submitted to Governor General Leonard Wood today.

This marks a crisis in the relationship between the governor general and native Filipinos in the government which has been strained some months and presents a problem that probably only congress or the president will be able to solve.

Hamilton stated that the committee secured the services of the wizard rifle shot after nearly a month's effort. The Winchester Arms Co. with which Mr. Richard is associated had booked him to appear in the east on that day but succeeded in changing the date so that Richard might attend the field day here.

Secretary C. Scott Chisholm announced Monday that several other surprises are in store for participants and visitors Wednesday. He is at work adding the names of several others added to the program and will announce the names Tuesday.

Saturday at the G. C. Greenisen farm, the pastor was given a royal send-off by the congregation of the Holy Trinity English Lutheran church at one of the most successful annual picnics ever held. The event was arranged by a committee composed of Herman Coy, chairman; Donald Izenour, Betty Coles and Billy Almon.

W. H. Kitz transported the merry makers to the grounds Saturday morning in his moving van. Volley ball and horse shoe pitching immediately claimed the attention of the older members of the congregation while the children took advantage of the specially constructed swimming pool.

Following the noonday repast a program of interesting athletic and entertainment was held. Prizes for running races were awarded to John and Mary Eckenroth, George and Harriett Izenour, Betty Coles and Billy Almon. Too Much Government

THE industry of government in the United States might not expand quite so rapidly if the American people would make fewer demands on it, or have a little better idea of what they really wanted from it and what it properly could supply.

But Americans have insisted upon regarding their government as a reservoir of magic into which every citizen is entitled to dip and pull out what he can get for himself or the particular interest with which he is identified.

There isn't a society or organization in the United States that directly or indirectly doesn't contemplate as part of the program to which it is dedicated the obtaining of some kind of legislation from congress. They have their paid agents in Washington, they have their little bills, they send on their committees and delegations, they write letters to congressmen, they petition and memorialize and keep their private presses turning out propaganda for their pet measure.

Government is human. It cannot resist this sort of pressure constantly applied. Members of congress are well enough aware of the unwisdom of yielding to those demands. They know what it will cost the taxpayers. But they are under the guns and know what is too likely to be the result for them politically if they turn down appeals from their own constituents. After all, what is a member of congress for if not to serve his district? He yields; others fall by the same persuasion, and another little bill goes through and another draft is drawn on the treasury. On the treasury?—on the American taxpayer.

A Kansas member of congress received a letter from a woman in his district asking him to support a bill initiated by an organization of which she was a member. She didn't seem to know much about the bill, but her organization had delegated her to bombard her member and that was enough for her. But in the same mail the member received a letter from the women's husband in which he made a considerable point about his taxes, which, he said, were destroying his business. The member conceived it would be a good idea to introduce these letter writers to each other, so he enclosed the wife's letter to the husband and the husband's letter to the wife, and wrote to each a suggestion that they get together and decide just what it was that particular family really wanted from congress. The result was most satisfactory. Husband and wife wrote jointly to the member advising him that they had decided to allow congress to be its own judge of what legislation was needed.

Public opinion in the United States probably is decidedly against the multiplication of governmental agencies and the cost they involve for which these organization demands for legislation are responsible. But unless public opinion hacks congress up in its struggle to maintain its independence the pressure of these demands will continue to bear it down.

County Fair Board
Will Meet Weekly

Lisbon, July 15.—From now until after the county fair, the county fair board will meet every Saturday afternoon in the assembly room in city hall, Lisbon. The meeting Saturday was for the disposal of routine matters.

Secretary H. E. Marsden, when asked if the new grand stand under process of erection at the fair grounds, would be completed and ready for use in time for the fair, expressed confidence that it would be done. The concrete foundation for the big structure is in position and it is expected the carpenters will be able to begin work on the superstructure within a short time.

Pittsburg.—A woman resident of the city declares that it is nobody's business how old a woman voter may be when she registers for voting privileges. She suggests that the question list be shortened as a means of arousing the interest of more indifferent voters.

That Body of Yours

By James W. Barton, M.D.

(Registered in Accordance With The Copyright Act)

IS YOUR BODY EDUCATED

In a former article I spoke of reading a story regarding a Junior college professor who kept himself in necessary funds by engaging in prize fighting under an assumed name, always at some distance from his college.

His method of training had been to educate his muscles to act to his call a little faster than that of his opponents. He nearly always landed his blow, and he nearly always eluded the blow of his opponent. Now that training of the nerves and muscles can really be the training of that entire body of yours.

What do I mean?

Well, you can train it insofar as it is humanly possible to train it to do the things you want it to do. To do them faster and with less exertion.

For instance if you have seen Joe Ray run, Weissmiller swim, Dempsey or Carpenter box, you saw speed without loss of motion. None of these men attained their proficiency without training. They had natural ability of course, but training made them champions.

If you accustom your lungs, your heart, to do extra work at regular intervals they will take care of you should the extra work come upon you suddenly.

You must run for your life, you must jump a stream, avoid a motor car, your chances of safety will be what you were given naturally plus the training you have done.

Similarly you can train that stomach of yours to eat a variety of foods, vegetables necessary to your health, but repugnant to your appetite. You can likewise train a morning after breakfast movement by drinking a glass of cold water before breakfast. Thousands have done this.

People with injuries have confined them to bed sometimes for weeks have so educated the intestine that it continues to act as regularly as when they were on their feet.

You remember how you learned to control your tongue, temper, and restlessness when you attended school.

Well, other centres in the body get the habit similarly, and you derive great benefit thereby.

So why not educate the body as well as the brain?

Kramer Eats Anything Set Before Him Now
"Tanlac put an end to a mighty bad case of indigestion for me, and gave me the appetite and energy of a sailor," declared Charles W. Kramer, a machinist, of 826 Eagle ave., N. E., Cleveland, Ohio, recently.
"Why, I'm eating pork, sauer kraut, pastries and everything now, and I have gained ten pounds."
"Before taking Tanlac, I had a hot, acid feeling and awful cramps in my stomach and gas bloated me up until my heart felt like it would stop beating. I was constipated, had chills, headaches and dizzy spells, and was so nervous I could not sleep well. I was hardly eating enough to keep body and soul together, and I lost weight and got so run-down the outlook was far from rosy."
"Well, sir, four bottles of the Tanlac treatment drove out every trace of my troubles, and today I am eating, sleeping and feeling fine. I always keep Tanlac handy—just wouldn't be without it."
"Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold."
Tanlac Vegetably Pills are Nature's own remedy for constipation. For sale everywhere.

LOWER ANIMALS DESIRE LOVE

Mankind Not the Only Creature That Is Able to Appreciate Feeling of Affection.

A certain hymn tells us that "the world is dying for a little bit of love." But have you ever thought that even as people desire love, so do animals?

All animals—especially dogs—are longing for love every day of their lives.

You can walk down the street and meet a lonesome, ragged, disowned dog, which, if you will snap your finger at him and speak kindly to him, will prick up his ears and wag his tail and follow you. Some dogs endure so many kicks and cuffs and so much starvation that they eagerly grasp at any insignificant kindness.

Animals love to be loved almost as well as a person does.

Remember this and see that all animals with whom you come in contact get some sort of affection.

A college president once stated that one of the tests of an educated person was to be able to say that a stray dog would follow him home.—Exchange.

Turkish towels now come from Lewiston, Me., where the mills are daily turning out thousands of high-grade Turkish towels that are said to be far superior to the goods formerly brought across the Atlantic. One mill as a side line turns out 30,000 bedspreads each week and daily produces thousands of yards of mercerized silk.

BENEFIT GAME WON BY SALEM MASONS AT LISBON 6 TO 5

The Salem Masonic baseball team tasted the fruits of victory Saturday at Lisbon when they won a see-saw battle from the Lisbon Masons 6 to 5. The game was full of exciting plays, and some 800 fans swelled the County Fresh Air Camp and Boy Scout fund.

After a bad start Daugherty was master of ceremonies for the local squad. He had one bad inning, the first, and it was clouded with dubious moments. Hendricks was an easy out, but Gilbert eluded the ball for two bags, Porter, Moore and Deemer followed the singles, two runs coming across the pan before the lanky Salem twirler settled down and retired the next two men.

Both teams uncovered some fine hitting with Salem's hits coming when needed. In the third inning, Moore, Lisbon catcher, got a home run over the left field fence, quite a feat for a southpaw batter. Bumbaugh in the fifth decided to even things up and smashed the ball into the horse stables beyond the track. Lisbon was unable to place her 14 hits at the right moment to win the game.

The bulwark of the Salem team was plainly Smith, the hefty catcher, who fielded brilliantly, and was always there with the stick, his three-bagger in the second however going to naught but a long fly in the fourth scored Sanders and Meyers.

Daugherty changed places with John Saunders in the eighth and pulled down a long fly which was on its way to a home run. Doe stretched his length and stabbed the sphere with his one hand. Kelly also stopped a hard one that looked like a sure hit in the fourth. He stuck out his gloved hand and pulled the ball out of the dust and shot it over to first before the runner had hardly left home.

Stackhouse proved easy for Salem but Al Green who relieved him in the eighth was more of a puzzle. It was Green's bat that nearly forced Smith out of the game. Smith was caught on the left leg by one of Green's swings. After the game he was taken to the Salem City hospital, and after an X-ray it was found that he had sustained only bruises and no fractures.

BOBBY JONES WINS OPEN GOLF TITLE

Georgia Youth Takes Honor
By Defeating Cruikshank In Playoff.

Inwood, N. Y., July 16.—Robert T. "Bobby" Jones, Jr., a sun-browned boy from Dixie, became the open golf champion of America Sunday, defeating Robert Allen Cruikshank, Scotch professional of the Shackamaxon Country club, Westfield, N. J., by two strokes in the play-off of a tie that existed Saturday at the end of the regular 72 hole championship round. Jones took 76 and Cruikshank 78.

Jones, an amateur of Atlanta, Ga., came into the title he long had sought on the 18th and very last hole, ending one of the most dramatic contests in the quarter of a century of title history.

Both the Georgian and the Scott at the end of the rounds Saturday to which 77 golfers competed, were tied with 294 strokes. That tie came into being on the 18th green. Jones, with the championship ready for a journey south, had fallen into black and had taken six horrendously dejected, had made a birdie three to square the stroke count.

The "big four" of American professional golf—Walter Hagan, Jack Hutchinson, Jim Barnes and Sarazen—failed for the first time in years to be in the running at the finish.

Hutchinson managed to save third place, six strokes behind the two leaders, but there were many new faces in the first 12.

Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not there, and no face treatment can give it to you. But increase your red-blood-cells—and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes Venus-like and immaculate! Try it. It will do it every time. S.S.S. builds the red-blood-cells you need for a beautiful complexion. Begin using S.S.S. at once, and give yourself what you have been working for, for years.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

The Importance of Good Telephone Habits

IF there is any one thing that reflects the spirit of an organization more than another, it is the service one gets over the telephone.

Your telephone habits determine the benefits you receive from the service to a greater extent than perhaps you realize.

When you crowd your words; when you let your voice fade toward the end of a sentence; when you hold the instrument too far from your lips; when you call a person and then make him wait until you are ready to talk—you do not get the results you secure by the practice of good telephone habits. You make a less favorable impression; you lose good will; and sometimes actual business.

Being a cooperative product, telephone service is at its best only when every person who has anything to do with making and using a connection does that part properly.

Every telephone call should be regarded in the same light that one regards a caller at the office or home in person.

The proper use of the telephone by everyone
will make the service of greater value to all.

PROBE DECLINE IN THEATER TAX

Large Shortage in Revenue
Leads To a Searching
U. S. Inquiry.

Washington, July 16.—The government is investigating a large shortage in revenue due to alleged tax delinquency of proprietors of theaters and other amusement places, it was learned today at the treasury department.

A sharp drop in the taxes from this source in the fiscal year caused officials of the internal revenue bureau to order searching inquiry into records of places suspected of having defrauded the government. It is not improbable that criminal actions will follow wherever the facts warrant such procedure, officials declared.

They said that instead of the government obtaining an anticipated increase in theater tax revenues, there was an actual decline in tax collections of \$4,933,000. The total of all revenues from this source was only \$63,000,000.

Preliminary reports indicated to officials that on the basis of record-breaking attendances at most of the theaters and other amusement attractions in the country during the past year, together with the fact that thousands of new theaters began operations, all of them reaping large profits, the revenues due on all tickets sold at such houses should have exceeded last year's collection by a substantial figure.
